

Full appliance-by-appliance deep clean guide

Kitchen deep clean steps

Oven interior

Apply oven cleaner, let dwell 20-30 minutes, wipe clean.

Stovetop grates and burners

Soak in hot soapy water; ammonia bag method for heavy grease.

Refrigerator shelves and drawers

Remove all food, wash shelves, clean gasket and door shelves.

Fridge condenser coils

Vacuum coils at back or bottom of fridge.

Microwave interior

Steam method: water + lemon or vinegar, 3 minutes, 5 min rest, wipe.

Dishwasher filter

Remove, rinse, soft brush to clear debris. Run empty cleaning cycle.

Cabinet faces

Degreaser spray, 1 min dwell, wipe with damp cloth.

Counters under appliances

Move toaster, kettle, etc. Clean underneath every appliance.

Behind and beside stove

Pull stove out. Sweep and mop floor, wipe stove sides.

Sink and drain

Scrub basin, baking soda plus vinegar flush for drain odour.

Baseboards near stove and sink

Wipe with damp cloth, pay attention to grease splatter zones.

Kitchen floor

Sweep or vacuum first, then mop. Get the base-of-cabinet gap.
