

Shoelace Whitening Cheat Sheet

CleanMol - GTA Home Care Guide 2026

Pick Your Method

1 Light grime

Dish soap soak, 15 minutes, then scrub and rinse.

2 Moderate grey

Baking soda and dish soap paste, scrub, sit 20 minutes.

3 Stubborn dinginess

Oxygen bleach soak, safe on colours and polyester.

4 Deeply stained cotton

Diluted chlorine bleach, 5 minutes max, cotton only.

Do It Right

1 Remove the laces first

Free laces clean far better than threaded ones.

2 Use a mesh bag

Protects the aglets and prevents tangling.

3 Rinse thoroughly

Leftover detergent or bleach causes yellowing.

4 Air dry only

Skip the hot dryer, which shrinks cotton and warps tips.
